- React
- Kubernetes
- Azure Pipelines
- Git

## PROFILE SUMMARY

Experienced and driven Software Engineer with a proven track record in developing and deploying enterprise applications. I am seeking a challenging role where I can contribute my skills in architectural planning, development implementation, and testing and monitoring.

## WORK EXPERIENCE

**Bushel**                                    January 2024-August 2024

Software Engineer I

- Handled authentication for services using Keycloak
- Wrote middleware that handled authorization permissions
- Made adjustments to authentication flows and UI
- Monitored services through Datadog, Rancher, and Azure

**Bushel**                                    May 2023-December 2023

Software Engineer Intern

- Created backend API's using Kotlin, Spring Boot, and Liquibase
- Created responsive web pages using nextJs and Chakra UI
- Wrote tests to ensure complete code coverage and all layers of the application worked as expected
- Reviewed enterprise code to ensure attention to detail
- Communicated with a team of engineers and product managers to ensure productivity and alignment
